May 1, 1978

Mr. Olin B. Sansbury, Jr.
Vice President in Residence
University of South Carolina
Spartanburg, South Carolina

Dear Olin:

Once again, thanks so much for arranging my recent visits with the Spartanburg academic community. You and Marion were very gracious.

I am sending along copies of seven Agency research and reference works of the kind that I described in my presentation. I hope they will be useful to members of your faculty and students. If they are of particular interest to you or the faculty, let me know and I can add you (or them) to the regular mailings of Soviet, Chinese, or general reference works that my office handles.

I am also enclosing several brochures from our Recruiting Office. They may be of use to your Placement people.

Jill and I hope that you and Muffit will have a long visit with us this summer. Best wishes.

Sincerely,

Associate Coordinator for
Academic Relations and
External Analytical Support

Spartanburg, South Carolina 29301

Dear Jack:

Thank you so much for providing me the opportunity to meet with your very bright and interesting students. If they enjoyed the meeting as much as I did, then surely it was a great success.

I promised to send you copies of unclassified CIA research and reference works. Seven are enclosed for you, your students and any colleagues you think may be interested. There is information on the inside of the front cover of each of them about how to subscribe to the full series. I am also enclosing several brochures from our Recruitment Office. They may be of interest to your Placement people.

I certainly enjoyed meeting you, and hope that we can get together again. Do let me know if you plan to be in Washington and we can make arrangements either to meet informally or for you to come out to the Agency.

Sincerely,

STATINTL

I appreciate very much your willingness to participate in the Workshop on U.S. foreign policy and Latin America last week.

The participants were fascinated with the discussion, and everyone from Osvaldo Sunkel to Sergio Bitar commented again on the usefulness of the session.

With best wishes.

Cordially,

Riordan Roett
